For example, grandparents living in the same house are included in the same household even if they have separate residence certificates. Also, even if the father/mother is living alone due to work etc. and the households are currently separate, they are included in the same household.

When filling in the “Family (Household) Status” section of the application form or preparing documents to show your financial situation, please see if there are correct information about household members (grandparents etc.) and complete documents.

(2) For public assistance recipients:

You do not need to apply for the pre-entrance payment for school supplies for the new school year as the public assistance benefit includes the school entrance preparation allowance.

(3) If you move out of Fukuroi City after receiving the pre-entrance payment for school supplies for the new school year, the Fukuroi City Board of Education will notify the municipality to which you have moved that you have received it.

(4) Please consult with the Board of Education in advance if your household status may change due to marriage, etc. by the end of March 2027.

(5) If the payment for school supplies for the new school year is received through deception or other wrongful means, the amount already paid must be returned.

- (6) The certified sibling of your child may also be certified as a student in need of school expenses subsidy in the 2027 school year at the same time if you fill in the section of "Student: Eligible for School Expenses Subsidy/Scheduled to Enter Elementary School" with their names.
- (7) For the 1st grade elementary/junior high school students who are certified as eligible for School Expenses Subsidy under the condition equivalent to public assistance by the end of April 2026, the Pre-Entrance Payment for School Supplies for the New School Year will be provided for the first-term payment of 2027 (Reiwa 9) school year, if they have not received the payment.
